\$4,000.00

I have been making large format watercolor/ multimedia paintings with found objects for over 10 years. Decades before that animals always appeared in my large format (72'X40') watercolors. Now I've settled on celebrating animals adding found objects to make a 2D work more accessible to the viewer. I pick the character of found objects sensitive to their properties and have often looked at Judy Pfaff's large, unglazed works for inspiration ever since I saw her exhibit at the Braunstein Quay gallery in San Francisco many years ago.
