Invitation

Encaustic Collage on Panel

24" x 24"

\$1,450.00

My work is inspired by people and their unique ability to think, grasp a concept, connect the dots...My medium is encaustic (beeswax and pigment) which allows me to layer my work and create depth and texture. One of my favorite artists who has inspired me since I was a teenager is Paul Klee. I love his color and I adore the way he divides his surface and covers it with color. To this day I often seek his paintings, images, and study them carefully. They are lively and full of invitations and joys.
